

SINCE 1988

DeSign of Nature

For more than 30 years the core of **ila**'s project has been to find and highlight the "Words" of Nature: the delicate, elusive, equilibrium which is veiled behind the perfect appearance of Mother Nature's creation and belies the secret of our own being.

In a world where the suggestive language of Nature is more and more ignored by the human mind, **ila**'s trees awaken and kindle our senses towards a new, enhanced experience of Nature.

SEMI NATURAL: THE MARRIAGE OF BEAUTY AND COMFORT

Behind the pristine beauty of our compositions lies the simplest philosophy of creation.

ila has been among the first companies in the world to adopt and develop the **Semi-Natural** concept in the production of our trees and plants.

Natural trunks are sourced from environmentally-friendly areas (especially from the clearing of zones about to be reforested) and are subject to anti-age, anti-parasitic treatments which allow our trees to maintain their natural, astonishing look for years.

The best and finest man-made leaves in the market contribute to make our Semi-Natural Plants unique.

The Union of Nature and Man which inspires **ila's** Semi-Natural philosophy is the concept at the core of our timeless, beautiful creations. The life-like elegance of our trees is matched by the comfort that they provide for our clients.

Our products do not need any watering, trimming and maintenance.

ila gives you the abiding, grandiose feeling of nature while allowing you to save money and time!

Correspondances

*La Nature est un temple où de vivants piliers
Laissent parfois sortir de confuses paroles;
L'homme y passe à travers des forêts de symboles
Qui l'observent avec des regards familiers.*

*Comme de longs échos qui de loin se confondent
Dans une ténébreuse et profonde unité,
Vaste comme la nuit et comme la clarté,
Les parfums, les couleurs et les sons se répondent.*

*Il est des parfums frais comme des chairs d'enfants,
Doux comme les hautbois, verts comme les prairies,
— Et d'autres, corrompus, riches et triomphants,*

*Ayant l'expansion des choses infinies,
Comme l'ambre, le musc, le benjoin et l'encens,
Qui chantent les transports de l'esprit et des sens.*

Charles Baudelaire

Since 1988 **ila** has been the leader in the market for the production of Semi-Natural plants and trees.

The choice of the finest materials and a groundbreaking philosophy of production have allowed us to widen our range of products and to customize our creations to suit our clients' needs and dreams.

Vertical Gardens

Designing the Fourth Dimension

A perfect solution for saving space and feeling immersed in nature within the walls of your house, office, etc.

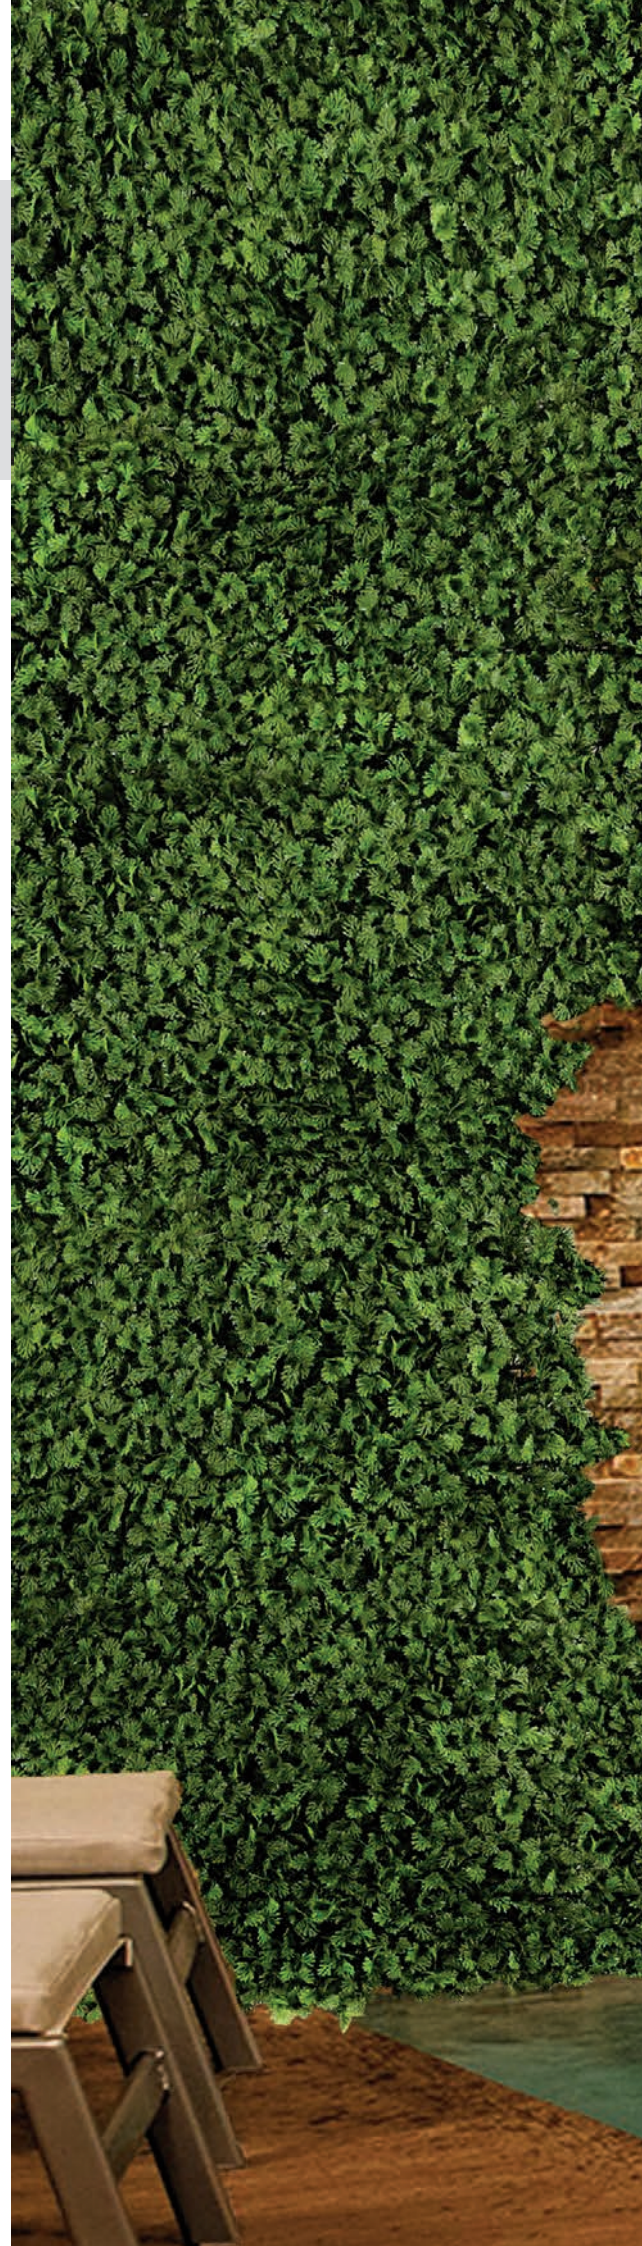

Vertical Gardens redefine the idea of space itself. Whereas traditional décor utilize surface and structure to occupy space, this new breakthrough in garden design provides a great opportunity to create a lighter and wider environment while maintaining a powerful and sublime atmosphere.

Indeed, width become length and long becomes large!

Vertical Gardens reshape the coordinate system of space inspiring new groundbreaking dimensions of design.
