Fabric is central to the product, giving it a well-defined personality and the strength to resist the passage of time.

Encore places its trust in the most qualified fabric suppliers which represent the most prestigious Italian Maisons. Our fabrics are therefore synonymous with reliability and make a finished product of undisputable quality.

We provide a wide range of fabrics with uncountable color tonalities which give the opportunity to customize products, satisfying the most singular aesthetic requirements and reflecting a sophisticated lifestyle.

The fabrics of the collection play with color and pattern, form unexpected combinations and change quickly from a glossy effect to an opaque one, all with timeless appeal.
