

BONALDO

Pangea

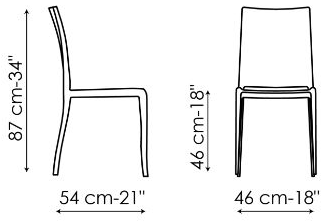

Combining research into materials and into shapes to create an item of interior décor that epitomises modernity, Pangea is a modern stackable chair in resistant plastic material. Preferring understated shades, it is available in three different colours, a characteristic that allows it to integrate perfectly in every furnishing context. Stable and resistant to atmospheric agents, comfortable, light-weight and easy to handle, it is

suitable for indoor, outdoor and contract use. The Pangea plastic chair is a soft seat, but one with strong lines, characterised by balanced proportions. Pleasant and suitable for numerous environments, it is marked by a balanced essentiality that allows it to enter into dialogue with different styles and worlds, embodying a new interaction between functionality and aesthetic personality.
