

BONALDO

Assemblage

Assemblage's distinctive sculptural appearance derives from the combination of different shapes and, most of all, materials that are not usually brought together, and whose perception of weight is here disrupted: cork, lighter than wood, serves here as the base and so it appears as the weight that supports the coffee table. The top, on the other hand, is made of solid wood, available in various colours. The skilful combination of warm materials, tied to nature, such as wood

and cork, makes Assemblage an object capable of furnishing both sophisticated living rooms and bedrooms, adding an elegant and contemporary touch to the home. A high quality accessory with a rich, vibrant and bold aesthetic. Available in two heights (Assemblage high and Assemblage low), these original coffee tables can be used as unique elements or in groups, to create dynamic compositions.
