01.

Il segno essenziale.  
Materia ceramica che  
abita lo spazio.

The essential signature.  
Ceramic matter  
that lives in space.

# Introduction.

Un effetto pietra appositamente ingegnerizzato: è quello che Lea Ceramiche propone con Nextone. Pietre provenienti da quattro diverse cave, combinate in modo inedito, ne creano una nuova, non esistente in natura, dall'estetica naturale ed equilibrata.

I quattro colori della collezione esprimono tonalità neutre, che spaziano dal candido White al luminoso Gray, dall'accogliente Taupe all'elegante Dark, un antracite con una punta di marrone.

Nextone è una collezione articolata in tre tecnologie produttive e in altrettanti spessori: un sistema decorativo pieno di risorse, con una gamma di formati, colori e decori in grado di misurarsi con ogni tipologia di progetto architettonico.

With Nextone, Lea Ceramiche offers a specially engineered stone effect. Various types of stone from four different quarries, combined in an original way, create a new stone that does not exist in nature and that boasts a natural and balanced aesthetic.

The collection's four colours express neutral tones, ranging from pure White to bright Gray and from welcoming Taupe to elegant Dark, a charcoal grey with a hint of brown.

Nextone is a collection divided into three manufacturing technologies and as many thicknesses: a resourceful decorative system with a range of formats, colours and decorations that can compete with any type of architectural design.

Line, Dot e Mark sono le tre varianti sui fondi in finitura naturale declinate sui quattro colori della serie, che riproducono graficamente lavorazioni tipiche della pietra e texture del mondo tessile. Si integrano con le tonalità del fondo dando l'illusione di un rilievo, in realtà perfettamente pulibile. Ricreano leggeri effetti materici combinabili alle finiture naturali e lappata dei moduli di base.

Line, Dot and Mark are the three background variations with a natural finish available in the series' four colour tones, which graphically reproduce traditional stone processing and the look and feel of textiles. These are integrated with the colour tones of the background giving the illusion of texture while actually being perfectly easy to clean. They recreate subtle tactile effects which can be combined with the natural and honed finishes of the basic modules.

In questo decoro eclettico e discontinuo tracce di pattern geometrici affiorano dalla pietra, evocando graffiti rupestri che sembrano provenire dal futuro. Disponibile in grandi lastre Slimtech e in tre colori, Graf contamina in modo creativo lo spirito minerale della collezione con codici prettamente umani.

In this eclectic and discontinuous decoration, traces of geometric patterns emerge from the stone, evoking rock carvings that seem to come from the future. Available in large Slimtech slabs and in three colours, Graf creatively contaminates the collection's mineral spirit with purely human codes.

Nextone propone una pietra ceramica unica e originale, per scenari che le estese superfici rese possibili dalle lastre di Slimtech imprimono nella memoria. È quello che accade in questo concept store, dall'audace contrasto tra la forza quasi ancestrale dell'effetto pietra e il ricercato design di arredi e complementi.

Nextone offers a unique and original ceramic stone for settings which the extensive surfaces, made possible by Slimtech slabs, imprint on your memory. This is what happens in this concept store, which features a bold contrast between the almost ancestral strength of the stone effect and the sophisticated design of the furnishings and accessories.

Perfettamente coordinabile col pavimento in gres porcellanato, Slimtech riveste il grande mobile cucina e l'isola centrale, facendone i protagonisti indiscutibili dell'ambiente. L'estensione della lastra sottile esalta il fascino di Nextone, una sorta di pietra ideale nata dalla calibrata sintesi di più riferimenti naturali.

Perfectly coordinated with the porcelain stoneware floor, Slimtech covers the large kitchen cabinet and the central island, making them the room's standout features. The extension of the slim slab enhances the charm of Nextone, a kind of ideal stone created from the calibrated synthesis of several natural references.

# 03e.

Nextone conquista le pavimentazioni degli spazi esterni grazie alle eccezionali performance della gamma L2 in 20 mm di spessore. Resistenza e durevolezza in un affascinante effetto pietra: un must in ogni contesto outdoor.

Disponibile in due formati Nextone L2 può essere posata a secco su erba, ghiaia e sistemi sopraelevati; oppure incollata su massetto nelle aree carrabili. Una soluzione completa per dare agli spazi esterni un originale effetto pietra: intensamente naturale, resistente, antiscivolo e inalterabile nel tempo.

Nextone conquers the flooring of outdoor spaces thanks to the 20mm thick L2 range which guarantees great technical characteristics. Resistance and durability with a fascinating stone effect, a must for outdoor settings.

Available in two formats, Nextone L2 can be laid dry on grass, gravel and raised systems; or glued on screed in driveway areas. A complete solution to give outdoor spaces an original stone effect: intensely natural, resistant, non-slip and durable.
