# PRESTIGE: luxury globes with a strong emotional charge

The Prestige collection stands out for its design with a great visual impact and for the use of high quality materials such as briar, steel, solid woods and the finest marbles.

The Prestige assortment is ideal to enrich modern and sophisticated interiors and is capable of meeting the most refined furnishing needs. Same as for Cube model, a globe distinguished by a very particular square support.

For those who love the glacial beauty of marble can opt for models such as Stone, Quadra or Artico; geometrical designs, dark or light shades maps that perfectly match the base.

The Vela, Aria and Artico models, with their acrylic crystal stand, are simply beautiful. The globe will almost seem to float in the air, supported by a thin and luminous plate.

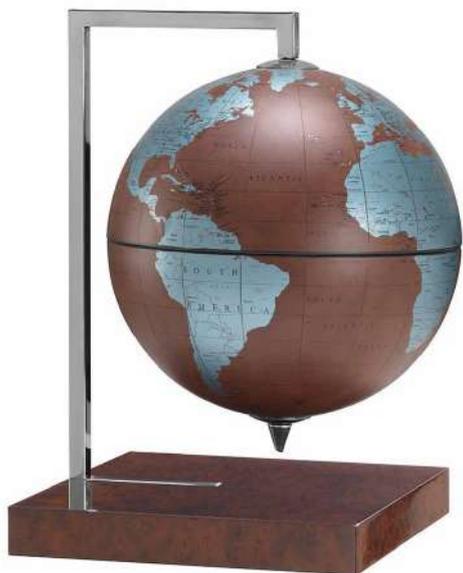

At last, the Vega globe from the top of its verticality offers an exceptional aesthetic impact, inviting you to the best of the explorations.

In this wide range of proposals, choosing the globe that best suits your interiors and your taste will be very easy. Every globe made by Zoffoli is simply perfect to enhance, with style and elegance, the spaces you live every day.

# DESK GLOBES

Designed for a tasteful clientele, these globes are ideal for lovers of unique objects. The modern style and the quality of the materials make these products of great character and pure geometry. Thanks to their size they can be easily placed on a desk or in a bookcase.
