

BONALDO

Innesti

Designer: **Paolo Grasselli**

The base of the Innessi modern nesting table, designed by Paolo Grasselli for Bonaldo, appears detached from the upper part of the accessory, as though the top were suspended in the air. The two parts are united by a perfect, yet unexpected joint that puts this table in the spotlight with a great

sculptural effect. This element becomes the standout feature of the living area, while dialoguing with the surrounding space thanks to the option of customizing the details with different types of marble, wood and ceramic for the top and different metals for the base.
