

BONALDO

Dorian Console

Designer: **Spazioameno**

Dorian Console, a stunning design console table, is clearly inspired by the model of the Doric column: the essential element in ancient Greek architecture is in fact reinterpreted as the supporting base of this piece of furniture. Made of polyurethane with a brushed finish, the base features the

typical grooved pattern. Where the classic capital was once originally located, there is now the slender surface of the top – available in wood, ceramic or marble - which highlights the visual contrast between the two parts.
